

ASDA video transcript - ASDA Benefits

A range of ASDA colleagues talk about the benefits that they receive working for ASDA.

"There's a great array of benefits at ASDA, it's not just your salary and car allowance at all."

"We get a benefits book which gives us all our discounts on theme parks and car parking at airports and things like that, just because you work at ASDA."

Sharesave

"I think my favourite benefit at ASDA is the Sharesave Scheme."

"Sharesave's a really good benefit as well, you take a bit of money out of your pay each month and that goes towards buying shares at a reduced price which you can save up over a period of three years."

"We're all owners of the company and the one reason that we work so hard in order for the company to become profitable, is because we get something back as well."

All Colleague Bonus

"The bonus is another really key benefit which all colleagues are eligible to get."

Law Club

"I've used Law Club to buy and sell a property, it only costs you 12p a week and you don't even notice it out of your wages at all."

Pension

"ASDA think it's very important to look after their colleagues, so the fact that they put so much into the pension to help me save for my retirement is also great."

10% Discount

"I also get a 10% discount card, which is great, which is off my groceries and everything. When I've got a big family to feed it's really good."

Discounted Child Care

"You get Busy Bees, I've got a six year old little girl so when it comes to holiday times it's great, it helps out with extra expenditure when it comes to child care."

Flexible Working

"It's really flexible working here. I do college as well, I'm part time and you fit your hours around working, or whatever you're doing."

"It's just like a second family really."

Celebrating Success

"There's a great focus at ASDA on celebrating success."

"One way is actually right here in the atrium, every quarter we have the Big Brunch and that's the big celebration about how we're doing, we hear the company's results, we find out a bit about what other people are doing, we get store's in to celebrate what they're doing as well."

"I think we work but we play hard as well, we have good fun."

Andy Bond
President & CEO

"This evening is all about celebrating ordinary people doing extraordinary things. We have 34 ASDA Shining Stars in the room this evening. I'd like all of those people to stand up and take a big round of applause from the audience."

"I wouldn't work anywhere else."

"To summarise ASDA in one word - can't do it, four words "a great place to work" – that's five words, sorry!"
